### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: Regarding claim 30, the prior art fails to disclose placement of the pressure transmission catheter within an artery accessible in a subcutaneous pectoral region of the chest, while the transducer remains outside of the artery. The examiner agrees with the applicants' comments regarding the use of an artery and its criticality as elaborated on page 11 of the Remarks. Regarding claim 42, the prior art fails to disclose a defibrillator programmed to receive pressure waveform information for an artery in a subcutaneous pectoral region and programmed to direct cardiac therapy based on the pressure waveform sensed from this region. As stated in paragraph 0026 of the present specification, arterial blood pressure is a preferred measure of cardiac function.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
